

□ Mini Exercise 01

Don't look for the answer immediately. Try this yourself.

```
numbers = [10, 20, 30, 40, 50, 60, 70]
```

```
print(numbers[3])  
print(numbers[-2])  
print(numbers[1:5])  
print(numbers[:4])  
print(numbers[3:])  
print(numbers[::2])  
print(numbers[::-1])
```
